

Professor Junaed Sattar

Dear Minnesota, I am professor Junaed Sattar,
I didn't grow up here in Minnesota.

But I love our lakes! I also love working where there's a spirit of discovery tackling real
problems like how to keep our lakes free of this invasive stuff and this stuff.

How do we do it? With a swimming robot!

And a spirit of never-ending curiosity that straps on the fins and goggles and gets to work.
So, swim proud, Minnesota. The Minnebot swims for you.
